

BLUEBEAM PDF REVU IS MORE THAN A PDF EDITOR

It combines an intuitive PDF viewer, editor and markup tool with reliable file creation technology to create a fully integrated solution for going paperless. The friendly and flexible interface makes it easy to access and manage PDF files on the desktop or on a tablet PC.

WHY BLUEBEAM?

- Customers report saving 50-80% on paper, printing and courier fees and increasing efficiency by 60%.
- A fully-loaded PDF solution designed for digital AEC workflows including design review, submittals, RFIs, takeoffs and estimation, punch and as-builts.
- The only professional PDF Editor designed for Tablet PCs with searchable ink, Windows TIP, pressure sensitivity and pen enabled zooming.

KEY FEATURES

- Easy one-button PDF creation from within AutoCAD®, Revit®, SolidWorks® and MS Office®
- Real-time collaboration through Bluebeam Studio™ - allows you to connect, create and collaborate with anyone, anywhere, at any time
- Innovative technology to create and store customized markups, toolsets and interface profiles
- Seamless integration into SharePoint® and ProjectWise® document management systems
- Compare Documents feature that automatically highlights the differences between two PDFs
- Batch process PDFs to add page numbers, stamps, or flatten markups in multiple PDFs

REAL RESULTS

Reduce licensing costs Award-winning architectural and planning firm saves \$400,000 by switching to Bluebeam.

- **KTGY Group, Inc.**

Achieve paperless workflow "Bluebeam's ease of use is key in helping us quickly achieve a paperless workflow so we can increase efficiency, reduce paper and eliminate waste."

- **JE Dunn Construction**

Reduce printing and shipping "Bluebeam has taken us along way toward achieving a paperless environment. On our initial project launch, we reduced our paper usage enough to achieve an 80 percent savings on printing and courier expenses."

- **William A. Berry & Son, Inc.**
